9:00 - 11:00 am *Paul Lessing, CDT*

1:00 - 3:00 pm "Contemporary Dentures" 2 Hour CE credit
Richard Rought, CDT

"Getting the Most Out of Your IPS e.max"

IPS e.max has become a true leader in the dental market for all ceramic restorations. The demonstration includes Paul layering a central and stain and glaze of a monolithic molar. Be sure to bring all your questions as there will be plenty of time for questions and answers.

Paul Lessing, CDT

Paul is a Field Technical Specialist for Ivoclar Vivadent. He has lectured and trained dental technicians in Empress Esthetic and the e.max systems. Paul owned and operated a dental laboratory for 25 years prior to joining Ivoclar Vivadent in 1994. Paul brings a wealth of knowledge in pressed ceramics. Paul will show the new technique for spruing the new Multi ingot.

"Contemporary Dentures"

This demonstration will update basic removable procedures, concepts, and materials as well as more advanced techniques. Emphasis will be placed on edentulous anatomy, simplified impression procedures for complete and partial dentures, posterior denture occlusion, and the development of skills of communication between the clinician and the laboratory technician. Learn about the advantages of different denture systems which can greatly improve the predictability of the final prosthesis. See how denture processing systems differ and how important they can be to the health of the oral tissues. The latest update in new denture teeth that will meet the demands of longer wear and high esthetics and choosing the proper denture tooth application. There will be demonstrations of all the tools used in the presentation and rationales for implant restorations.
